Website (Polish): www.wnoz.ath.bielsko.pl

The Faculty was founded in 2005 in response to deficit of specialists on medical branch especially on nurse field.

Actually delivers courses at the Bachelor's levels. There are plans to open Master's level courses for nurses, as well as to start with new medical departments in the near future.

The Faculty provides education in nursing at NURSING DEPARTMENT.

The Faculty offers a wide variety of educational forms and study programs and has a partnership projects with the universities in Turkey, Finland and Czech Republic.

The main goals are:

1. Searching for and implementing new educational and organizational solutions in order to ensure high quality of education.
2. Preparing the graduate for further education on 2 year graduate studies.
3. Familiarizing the students with the moral values connected with the nursing profession.
4. Guarantying every member of the Department such conditions which enable professional and scientific development.
5. Supporting the graduates in proper fulfillment of professional work.
